

Child and Adolescent Inpatient Program

There is help for children and adolescents between the ages of 5 and 17 who struggle with behavioral, mental health or substance use conditions.

Board-certified child and adolescent psychiatrists treat patients using evidence-based therapies that can include:

- Group and family therapy
- Psychoeducational groups
- Recreational therapy
- Patient and family education
- Medication management

Our multidisciplinary team, patients, their families and referring health professionals work together to create a treatment plan customized for each individual's needs.

We are here to help.

We accept admissions 24/7.

Call 407-370-0111 for a no-cost assessment.
